We need to take care of our world and make sure we look after it.	We can help our Earth by always remembering to put our rubbish in the bin, turning off the lights when we leave a room, and being careful with how much water we use.
Each country around the world looks very different.	Each country has different people, buildings, and cultures. Some countries will look similar to our own and others will look very different.
Children around the world all have different lives and experiences.	Children eat lots of different types of food, some children work instead of going to school, children speak different languages.
Pictures from the past are often in black and white.	We can also use the clothes, vehicles and buildings in the pictures to help us decide if it is new or old.
