

What will I know by the end of the unit?

I can explain what a plant needs to grow.	To grow a plant we need a seed, soil, water and it needs sunlight to make its food.
I can use my senses to explore natural materials.	Materials have different textures, some are smooth or rough, hard or soft, strong or weak.
I can plant a seed.	Seeds need soil, water and sunlight to grow. When planting a plant, I will need a plant pot, a shovel and a watering can.
I can explore minibeasts and their habitats.	Minibeasts live in lots of different places and they live where suits them best. Some live in trees, or in the mud, and some live under rocks.
I can name minibeasts we might see on school grounds.	Farmers are very important. They help to take care of all the animals and make sure our food can grow.
I can observe the life cycle of a butterfly.	Butterflies start their lives as caterpillars. Over time they change into a butterfly.
